The upside-down basket

Fox sneezed. His picnic did a somersault!

Count only the acorns inside the frame. Write how many you find.

HOW MANY ACORNS?

Fox promises to sneeze away from the basket next time.

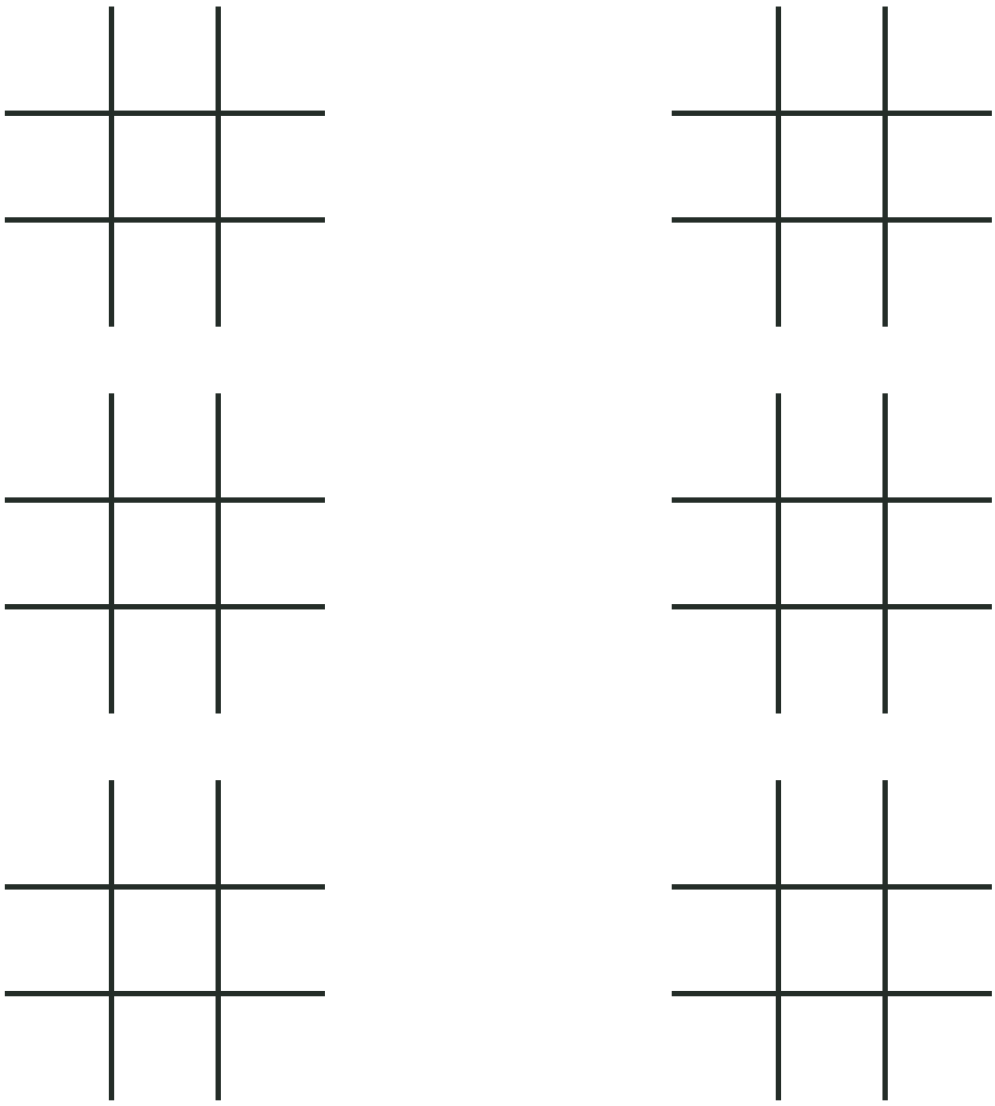

A pancake hat

Fox ordered his new hat from the breakfast menu.

Picnic tic-tac-toe

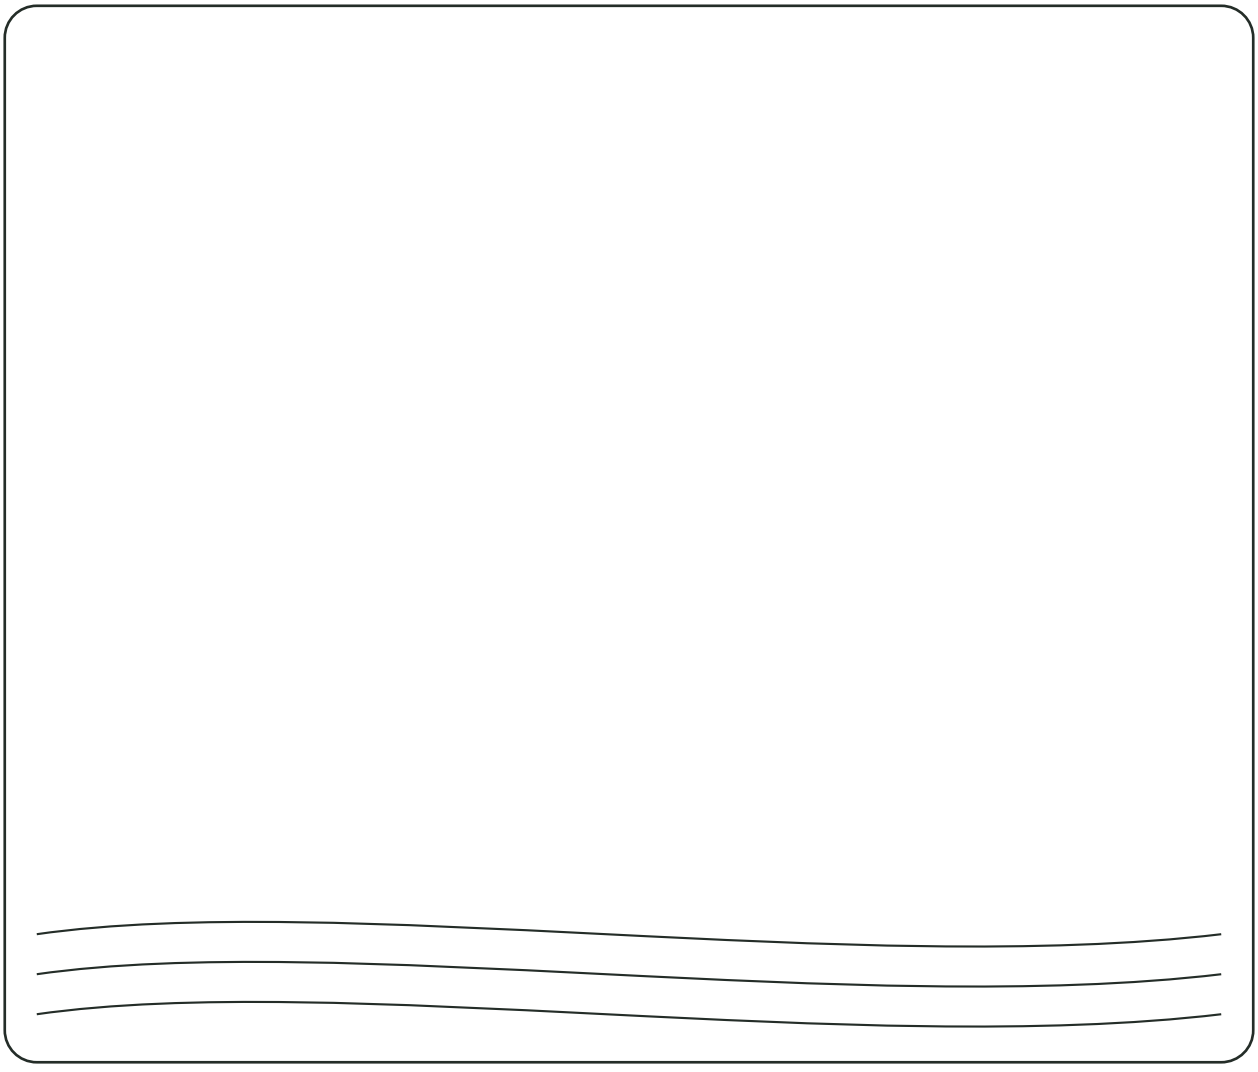

Choose X and O. Take turns marking an empty square. Make a row of 3 across, down or diagonally to win. If the board fills up with no line of 3, it is a draw! Take turns going first on each board.

The loser names the next imaginary snack.

The impossible boat

Invent a boat for the friends. Add a sleeping place, a funny engine and a secret snack cupboard. It can look like anything you want!

Boat name: _____

The answer and what is next

The basket puzzle: 7 acorns

A hint to offer first: cross off each counted acorn. Leaves and mushrooms do not count.
